

Little introduction

Several years ago, passionate about painting, I was looking for a simple way to explain to me its art world, the artists, artworks, styles and prices. It was not so easy to find something that meets my little expectations, so I've decided to study them, visiting museums, art fairs, and websites. In order to keep track of my research, I've started to create simple files to summarize shortly each artist overviewed. I share with you my findings, focusing on "modern" era with artists born after 1850. I hope you will enjoy and discover more artists and their amazing artworks. This is my personal work, no AI has been used. Pleaae forgive my mistakes in this 7000+ artists survey and don't hesitate to contact me, I will try to adjust regarding your comments. May the art fever be with you, always!
